

Automotion Warranty

Warranty that works

Introduction to Automotion

Automotion Warranty

Automotion is a national used car warranty programme which is available from franchised dealers and certain selected quality used vehicle dealerships.

By using Automotion we can offer our customers a range of warranties for all ages of vehicles, from brand new to 15 years old, and 1 mile to 150,000 miles; with levels of cover and claim limits to suit everyone's budget.

We stand by our claims

At Automotion we pride ourselves on our professional, efficient and sympathetic approach to claims, and take great satisfaction from our highly rated claims service.

Warranty that works

Quality and dependability are no doubt the main reasons why you chose to purchase your vehicle.

All modern vehicles are designed and built to extremely high standards, with the aim of delivering a fun and carefree driving experience.

However, over time some mechanical and electrical components of your car may wear and in some cases could fail and need replacing; leaving you with an unexpected repair bill.

You can now have peace of mind with an Automotion warranty, which will limit your exposure to large repair bills for up to 3 years, leaving you to enjoy your new vehicle.

Automotion takes over when your manufacturer's warranty expires, or has already expired, and covers cars and commercials up to 4.6 t GVW.

We really have got it covered

Replacement vehicle hire is available, up to a value of £60 inc VAT per day, (maximum of 7 days). This is for major repairs, with a labour time in excess of 8 hours. Cover is available 24 hours after a valid repair has commenced (see terms and conditions).

Overnight accommodation or rail fares, up to £100 inc VAT, when a vehicle repair has been authorised (see terms and conditions)

Additional options (for a fee)

- MOT Test Warranty
- Breakdown Assistance and Home Start
